The British Association of Dermatologists gratefully acknowledges the contribution of the many Companies whose attendance has helped make the meeting possible.

A Warm Welcome to Liverpool 2023

Dear Colleagues,

It is a great pleasure for me to Chair the Organising Committee of the 103rd Annual Meeting of the British Association of Dermatologists.

In line with membership feedback and to avoid clashing with the World Congress of Dermatology, this year's annual meeting will be in June rather than July. The BAD Annual Meeting returns to Liverpool for what promises to be a busy three days of talks from leading experts, informative speciality sessions and great networking opportunities.

The BAD Officers and the BAD Conference & Events committee have taken on board the positive feedback regarding the opportunity to access all the conference content after the meeting so this offer will again be available to all physical attendees. There will also be a virtual registration option for those attendees unable to join us live in Liverpool. We do of course hope that as many of you as possible can attend in person in June and we look forward to seeing you all.

Please check the website to keep up to date with the programme, abstract submissions and sponsoring companies. We hope that you will all enjoy the excellent programme we have planned and benefit from this hybrid approach as our Annual Meeting evolves for our ever-changing times.

Scientific Programme

The format of the conference will be very similar to the 2022 meeting, focussed around the traditional Tuesday – Thursday format, so be sure to join us on 27th – 29th June 2023. All content will be captured and available on demand for 6 months after the event.

This year we are delighted to welcome the British Society for Rheumatology as our guest society; in a joint session we will explore interpreting autoimmune profiles. We are also delighted to announce a new pre-conference session, Management Course for Consultants.

In addition to the daily Plenary sessions, we will have the CPC session (Tuesday), the ever popular Medical Dermatology session (Wednesday), Professor & Registrars session (Thursday) and concluding with our Rook Orator for 2023, Professor Nick Reynolds.

As always there are plenty of other sessions and brilliant talks taking place in the Special Interest Group sessions, Hot Topics, and Sponsored Symposia. Be sure to read through the announcements for details and pre-register to avoid delays upon arrival. Please be sure to visit the stands within the exhibition hall, you will also find the catering, the well-being area and the two dedicated session rooms (for Hot Topics and Lunchtime Symposia).

Our pre-conference sessions will be available on Monday 26th June, including the Trainee session, DermSchool, Specialty & Associate Specialist doctors' session and the BSD Self-Assessment session. This year we will launch the Management Course for Consultants. It will include sessions on service recovery and leadership.

Due to the success of last year's BADfest we will again be holding an evening of entertainment, food and drinks on Tuesday. This year it will take place at the Museum of Liverpool. Be sure to explore Liverpool's fascinating, diverse history in this magnificent waterfront museum.

Along with the whole BAD team, I look forward to offering a warm in person welcome to all UK and International delegates.

I hope you enjoy the meeting!

Professor Richard Warren
BAD Academic Vice President (2021-2023)

ACCOMMODATION

ArrangeMy is the official accommodation provider for the 2023 BAD Annual Meeting. To book accommodation for this event, please visit: <https://badannualmeeting.co.uk/accommodation>

APP

Search for BAD2023 in your app store and download the conference app.

The app will provide the following features

- Review agenda & speakers
- View abstracts & e-posters
- View sponsors & exhibitors

BADGES

Conference badges will be handed to delegates on registration. For security purposes name badges must be worn at all times throughout the meeting. If you lose your badge, a replacement must be obtained at the registration desk.

The RFID badges will enable delegates to touch into sessions for CPD recording.

In addition, some of the exhibiting companies may ask you to tap in at their stand or symposium. Please be aware that by doing this you will be providing your email details and may receive one automatic email from them.

The email address they receive will be the one that you specifically indicated in the appropriate section on the registration system.

BANKING

A cash machine is situated in the Galleria.

BUSINESS SERVICES

Located in the Galleria, the E.ON Business centre is open throughout the event

CATERING

Lunch and all scheduled refreshment breaks will be served from designated points in the Exhibition Hall.

CERTIFICATE OF ATTENDANCE

Certificates of attendance will be sent to your registered email address. This will provide a CPD breakdown of the sessions you have attended.

Please don't forget to tap into sessions.

CLOAKROOM

The cloakroom is located on the Galleria. There will be a charge of £1.00 per item.

CONTINUING PROFESSIONAL DEVELOPMENT CREDITS (CPD)

This event is approved for external credit for the CPD scheme of the Federation of Royal Colleges of Physicians of the UK. Please tap your badge at the terminals on entry into the session to receive a CPD breakdown on your certificate to be received post meeting. Physicians should record their credits in their diaries, in accordance with the current RCP recommendations. The post event virtual platform will launch on Friday 14th July and we are applying for CPD accreditation for up to 6 months

EXHIBITION

The exhibition will be located in Hall 2 of the ACC Liverpool venue and will be open at the following times:

THE OPPORTUNITY FOR COMPLETE, FAST AND LASTING SKIN CLEARANCE^{*,†,1,5}

* In phase III studies BIMZELX demonstrated superiority vs placebo (BE READY; $p < 0.0001$), ustekinumab (BE VIVID; $p < 0.0001$), and adalimumab (BE SURE; $p < 0.001$) in achieving the co-primary endpoints PASI 90 and IGA 0/1 at week 16 with 90.8% (317/349), 85% (273/321) and 86.2% (275/319) of patients achieving PASI 90. At week 4, 75.9% (265/349), 76.9% (247/321) and 76.5% (244/319) of patients achieved PASI 75 (secondary endpoint).¹⁻⁴

† In the BE BRIGHT open label extension study, 62.7% (620/989) of patients achieved PASI 100 at Week 16 (non-responder imputation [NRI]). Of these patients, 84.4% (147/174) of patients randomised to 8 week dosing maintained PASI 100 at Week 148.⁵

The most frequently reported adverse reactions with BIMZELX are: upper respiratory tract infections (14.5%) and oral candidiasis (7.3%).¹ Other common adverse events include: Tinea infection, ear infection, herpes simplex infections, oropharyngeal candidiasis, gastroenteritis, folliculitis, headache, dermatitis and eczema, acne, injection site reaction and fatigue.¹

BIMZELX is indicated for the treatment of moderate to severe plaque psoriasis in adults who are candidates for systemic therapy.¹

Prescribing Information and Adverse Events can be found below.

PRESCRIBING INFORMATION

(Please consult the Summary of Product Characteristics (SmPC) before prescribing)

BIMZELX[®] ▼ (Bimekizumab)

Active Ingredient: Bimekizumab – solution for injection in pre-filled syringe or pre-filled pen: 160 mg of bimekizumab in 1 mL of solution (160 mg/mL). **Indications:** Moderate to severe plaque psoriasis in adults who are candidates for systemic therapy. **Dosage and Administration:** Should be initiated and supervised by a physician experienced in the diagnosis and treatment of plaque psoriasis. **Recommended dose:** 320 mg (given as two subcutaneous injections of 160 mg each) at week 0, 4, 8, 12, 16 and every 8 weeks thereafter. For some patients with a body weight ≥ 120 kg who did not achieve complete skin clearance at week 16, 320 mg every 4 weeks after week 16 may further improve treatment response. Consider discontinuing if no improvement by 16 weeks of treatment. **Renal or hepatic impairment:** No dose adjustment needed. **Elderly:** No dose adjustment needed. Administer by subcutaneous injection to thigh, abdomen or upper arm. Rotate injection sites and do not inject into psoriatic plaques or skin that is tender, bruised, erythematous or indurated. Do not shake pre-filled syringe or pre-filled pen. Patients may be trained to self-inject. **Contraindications:** Hypersensitivity to bimekizumab or any excipient; Clinically important active infections (e.g. active tuberculosis). **Warnings and Precautions:** Record name and batch number of administered product. **Infection:** Bimekizumab may increase the risk of infections e.g. upper respiratory tract infections, oral candidiasis. Caution when considering use in patients with a chronic infection or a history of recurrent infection. Must not be initiated if any clinically important active infection until infection resolves or is adequately treated. Advise patients to seek medical advice if signs or symptoms suggestive of an infection occur. If a clinically important infection develops or is not responding to standard therapy, carefully monitor and do not administer bimekizumab until infection resolves. **TB:** Evaluate for TB infection prior to initiating bimekizumab – do not give if active TB. While on bimekizumab, monitor for signs and

symptoms of active TB. Consider anti-TB therapy prior to bimekizumab initiation if past history of latent or active TB in whom adequate treatment course cannot be confirmed. **Inflammatory bowel disease:** Bimekizumab is not recommended in patients with inflammatory bowel disease. Cases of new or exacerbations of inflammatory bowel disease have been reported. If inflammatory bowel disease signs/symptoms develop or patient experiences exacerbation of pre-existing inflammatory bowel disease, discontinue bimekizumab and initiate medical management. **Hypersensitivity:** Serious hypersensitivity reactions including anaphylactic reactions have been observed with IL-17 inhibitors. If a serious hypersensitivity reaction occurs, discontinue immediately and treat. **Vaccinations:** Complete all age appropriate immunisations prior to bimekizumab initiation. Do not give live vaccines to bimekizumab patients. Patients may receive inactivated or non-live vaccinations. **Interactions:** A clinically relevant effect on CYP450 substrates with a narrow therapeutic index in which the dose is individually adjusted e.g. warfarin, cannot be excluded. Therapeutic monitoring should be considered. **Fertility, pregnancy and lactation:** Women of child-bearing potential should use an effective method of contraception during treatment and for at least 17 weeks after treatment. Avoid use of bimekizumab during pregnancy and breastfeeding. Discontinue breastfeeding or discontinue bimekizumab during breastfeeding. It is unknown whether bimekizumab is excreted in human milk, hence a risk to the newborn/infant cannot be excluded.  **Time: 10:30 – 11:00**

 **Exhibition Hall 2.2**

Topics to be covered:

- How can peer review help you/Why peer review?
- Getting started with peer review
- How to peer review/structure
- Peer review resources
- How to sign up to peer review for BAD's journals
- Gaining credit for peer review

This will be followed by a Q and A session.

Our Speakers:

John Ingram, Editor-in-chief BJD

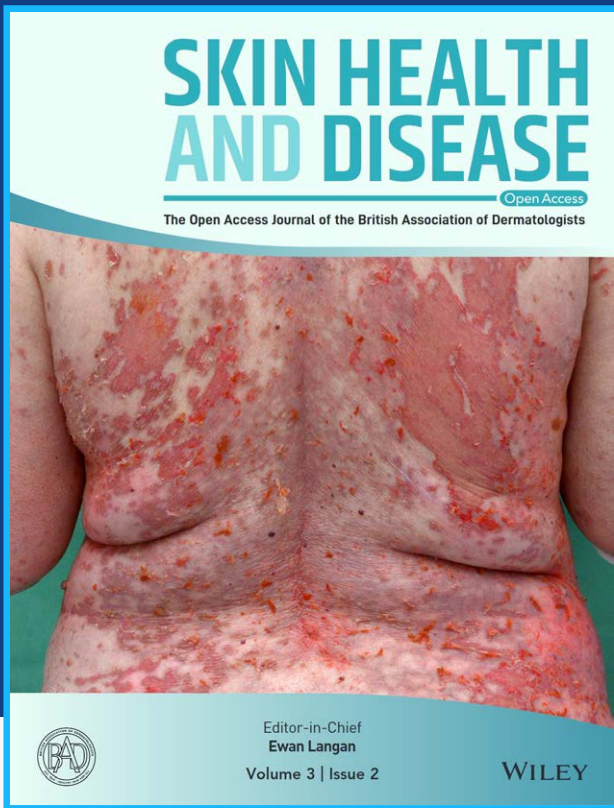

Alexa Shipman, Editor-in-chief CED

George Millington, Deputy Editor SHD

Going Green in Liverpool at #BAD2023....

Environmental sustainability is central to the planning of our conference and exhibition this year and we are working hard to improve this. We will not get everything right and are not perfect, but we are looking to build sustainable elements into the delivery of this event. Please see below some of the initiatives that we propose to continue in 2023.

Meet Meat Free

Meat production accounts for nearly 60% of all greenhouse gases. We witnessed in 2019 at the BAD annual meeting that a significant number of delegates choosing vegetarian lunches, as a healthy choice rather than necessarily identifying as a vegetarian. The BAD Conference & Event Committee has decided that **50% of all the lunches served at the BAD Annual Meeting will be Meat Free**. We will still cater for dietary requirements (so please indicate on your registration form).

Lunch will be served in recyclable vegware, so please use the bins provided. Vegware is made from plants using renewable, lower carbon, recycled or reclaimed materials, and designed to be commercially compostable with food waste.

Minimise Printed Materials

Digital alternatives will be offered to avoid using paper. Delegates should use the conference App and the e-programme will be available on the BAD Annual Meeting website.

The BJD Abstract supplement will be online only.

There will be a small, printed overview guide to help navigate the exhibition and to locate sessions on a daily basis.

Think Green – Reduce, Reuse, Recycle

We are asking all delegates and exhibitors to also be guided by this approach when planning their attendance at the conference this year, for example through their travel planning, stand designs and careful use of the recycling options that will be in place for different types of waste. Every step of the way: **Reduce, Reuse, Recycle**

Every step of the way: **Reduce, Reuse, Recycle**

Bag, Bottle, Pen & Pad

All attendees are encouraged to bring their own bag, bottle, pen and pad. We will have a small supply at the registration desk if needed.

Poster Walks

We are delighted to continue at the Liverpool Annual Meeting the interactive eposter walks. These expertly lead educational strolls through selected posters will be based broadly on several different themes and feature discussions on the key findings of the papers presented. Please gather by the eposter area within room 11 at the appropriate time.

Here are the walk leaders, themes and the selected eposters will be confirmed shortly.

Clinicopathological Cases

- P01 Severe adult-onset inflammatory disorder with associated *UBA1* somatic mutation
Evangelia Vetsiou, Steve Smith, Karina Forde, Sarah McDonald, Duncan Brian and Andre Khoo
- P02 Galli Galli disease: a rare variant of the genodermatosis Dowling-Degos disease
Paula Beatty, Mairin Mc Menamin and Bairbre Wynne
- P03 Abstract withdrawn
- P04 Leg ulceration in a patient with antisynthetase syndrome
Xingyue Maria Wang, Julian Pearce, Nilukshi Wijesuriya, Richard Griffiths and Zainab Jiyad
- P05 A rare presentation of blistering in an adolescent
Nicola Watson, Fraser Charlton, Philip Hampton, Anna Dubois and Suzy Leech
- P06 Porokeratosis ptychotropica: a rare and recalcitrant genitogluteal eruption
Kate Dear, Richard Watchorn and Chris Bunker
- P07 Not just simple hand eczema: a case of Jo-1-positive antisynthetase syndrome ('mechanic's hands')
Ahmed Al-Tameemi, Sarah Elyoussfi and Raed El-Naes
- P08 Successful treatment of paediatric morphea with tofacitinib
Junchi Tang, Wenyue Zheng and Bin Yang
- P09 A case of suspected COVID-19 vaccine-induced antiphospholipid syndrome
Patrick Bryan, Namor Williams and Geraldine Haebich
- P10 Blastic plasmacytoid dendritic cell neoplasm: two representative cases
Neha Taneja
- P11 Acrodermatitis chronica atrophicans: a sign of late Lyme disease
Elsa Morgan, James Wiggins, Megan Mowbray and Michael Tidman
- P12 A flare of dermatitis herpetiformis precipitated by etanercept
Elizabeth Wasson, Rosie Vincent and Michael Giles Dunhill
- P13 A rare case of Sjögren syndrome in a white woman with Kikuchi-Fujimoto disease
Sheena Goyal, Georgina Elston and Brinder Chahan
- P14 Bullous Sweet syndrome as a presentation of chronic myelogenous leukaemia
Zarnain Shah Syed, Syeda Wajiha Abbas and Usman Shaikh
- P15 Progressive papulonodular eruption following COVID-19 infection: a rare diagnosis and review of the literature
Rhian Sheppard, Stephanie Austin, Caroline Morgan and Margaret Ashton-Key
- P16 Cutaneous renal cell carcinoma metastasis with scrofuloderma as the initial presentation of metastatic renal cell carcinoma: a diagnostic challenge
Rohit Kothari

- P17 Photosensitive rashes in the context of alcoholism: a diagnosis to remember
Anna Davies, Natalie Stone and Nabil Ponnambath
- P18 A novel presentation of glycogenic acanthosis of the lip
Niall Cosgrave, Julianne Clowry, Laoise Coady, Mairin McMenamin and Benvon Moran
- P19 Diagnostic conundrums in paraneoplastic pemphigus
Sarah Fleming, Jane Setterfield, John Mee, Helen Barrett and Karen Eustace
- P20 A mysterious case of recurrent malignant melanoma
Meghana Mandala and Noor Awash
- P21 Facial papules in an immunocompromised patient
Kieran Carty, Karen Eustace and Eoghan de Barra
- P22 Clinicopathologic characteristics of metastatic cutaneous squamous cell carcinoma: a cohort study
Nicholas Stefanovic, Alan Irvine, Niall Cosgrave, Lisa Killion, Patrick Ormond, Benvon Moran and Rupert Barry
- P23 Primary penile melanoma and penile lichen sclerosus
Kate Dear, George Kravvas, Sharmaine Sim, Mariel James, Richard Watchorn, Aiman Haider, Peter Ellery, Alex Freeman, Hussain Alnajjar, Asif Muneer and Chris Bunker

Health Services

- P24 A pharmacist-led acne service as a novel and highly effective model of care utilizing the full potential of a multiprofessional workforce
Sylwia Michlewska, Morag Herkes, Chandra Bertram and Nicola Salmon
- P25 Considering the burden of scabies alongside a mass drug administration treatment programme in an indigenous community in northern Australia
Victoria Cox, Michelle Dowden, Crystal Williams, Daniel Engelman, Jennifer Yan, Anna Ralph, Bart Currie and Joshua Francis
- P26 Risk factors for complications in cutaneous squamous cell carcinoma and proposal of a simplified follow-up strategy, making use of available healthcare resources
Daniel Micallef, Alicia Dimech, David Pisani, Liberato Camilleri and Lawrence Scerri
- P27 An innovative multidisciplinary approach to optimizing the dermatology service for patients with chronic spontaneous urticaria, psoriasis and atopic dermatitis
Sylwia Michlewska, Lucy Liversedge, Johana Miller, Chandra Bertram, Sara Brown, Michael Farrugia, Claire Leitch, Richard Weller and David McKay
- P28 Impact of the COVID-19 pandemic on cutaneous squamous cell carcinoma pathology reports in England and its nine regions: 1127 fewer cSCCs reported in 2020 compared to 2019
James Wall, Zoe Venables and Nick Level
- P29 Selfies: not ideal!
William Tuckwell and Alison Godwin
- P30 Declining staff numbers and increasing workload: is there a solution?
Charlotte Wolfe, Rebecca Phillips, Dhruvkumar Laheru and Rachel Fisher
- P31 Trial design to improve inclusion of patients from ethnic minority backgrounds
Liam Bishop, Isabelle Smith, Rachael Gilberts, Jane Nixon and Miriam Wittmann

- P32 Impact of the COVID-19 pandemic on health equality in malignant melanoma diagnosis
Kenny Lau, Huan Cheng and Rima Hussain
- P33 A population-based study describing the burden of disease in patients with vitiligo and on the healthcare system in the UK
Viktoria Eleftheriadou, Carine Delattre, Iftekhar Khan, Amit Mathew, Shala Chetty-Mhlanga, Christopher Lee, Clare Flach and Andrew R. Thompson
- P34 Changing patterns of skin diseases in patients attending a tertiary private hospital in central Uganda
Fiona Namutebi
- P35 Adopting a personalized approach to blood monitoring in patients with psoriasis prescribed biological therapy: a retrospective single-centre review of real-world data
Amaani B. Hussain, Grace Singleton, Stephanie Ball, Sophie Weatherhead, Nick J. Reynolds and Philip Hampton
- P36 A cross-sectional patient survey in a tertiary hidradenitis suppurativa clinic
Libin Mathew, Sally Aziz, Leila Kattach, Aadarsh Shah and Ellie Rashidghamat
- P37 An island story: a successful new model of specialist dermatology provision to a rural area
Kirstin Abraham, Huw Thomas and Alyson Bryden

Lab Based Research Science

- P38 Integrating proteomics and genomics to investigate the mechanisms of paradoxical eczema developing in patients with psoriasis treated with biologics: a UK multicentre longitudinal cohort study
Ali Al-Janabi, Paul Martin, Adnan Khan, Amy Foulkes, Catherine Smith, Christopher Griffiths, Andrew Morris, Steve Eyre and Richard Warren
- P39 Methotrexate induces epidermal DNA damage response and filaggrin in atopic eczema
Amaani B. Hussain, Martina Elias, Simon Cockell, John Casement, Graham Smith, Yuchun Ding, Esme Nichols and Nick J. Reynolds
- P40 Dupilumab treatment restores skin barrier function in lesional and nonlesional skin of patients with atopic dermatitis and improves patient-reported outcomes
Michael Cork, Robert Bissonnette, Marco Ramirez-Gama, Patricia Taylor, Amy Praestgaard, Noah Levit, Ana Rossi and Annie Zhang
- P41 An emerging role of interferon targeted therapy for the treatment of cutaneous systemic lupus erythematosus: a prospective real-world evaluation of anifrolumab for refractory cutaneous lupus
Lucy Carter, Zoe Wigston, Philip Laws and Edward Vital

Education, Training & Audit

- P42 Are chest X-rays still necessary for prebiologic tuberculosis screening? A retrospective audit
Daniel Yi Liang Tan, Younghoon Kim, Zeeshaan Hasan, Anthony Bewley, Sarah Mehrtens and Padma Mohandas
- P43 Patient tolerability of adalimumab biosimilar therapy in dermatology and rheumatology: real-world experience from a large tertiary centre
Arlene McGuire, Sarah Guard, Karen Topping, Catherine Smith, Satveer Mahil, Jonathan Barker, Conn McGrath, Hannah Fox and Lucy Moorhead
- P44 Can dermatologists help save the planet?
Anjeli Taheem, Shafiah Muna Abdul Gafoor, Emma Woodcock and Toby Nelson

- P45 An analysis of infantile haemangioma referrals and comparison with the Infantile Haemangioma European Task Force's 'Infantile Haemangioma Referral Score'
Nicole Fagan, Eilis Nic Dhonncha and Muriel Sadlier
- P46 A step toward zero leprosy: experiences of Nepal in leprosy data verification
Rabindra Baskota and Rashmi Baral
- P47 Management of extramammary Paget disease: a current unmet need
Sofia Labbouz, Hemalatha Bhuvanai Sitaraaman, Laura Keeling and Ruth Murphy
- P48 Clinical update: ivermectin access for scabies improved through Pharmaceutical Benefits Scheme change in Australia
Victoria Cox, Michelle Dowden, Mike Stephens and Bart Currie

Skin Cancer

- P49 Epidemiology of skin cancer by ethnicity in England, 2013–2020: a cohort study
Anna Ascott, Birgitta van Bodegraven, Shehnaz Ahmed, Catherine Harwood, Charlotte Proby, Mary Sommerlad, Sally Vernon, Claire Welsh and Zoe Venables
- P50 Exploring Unmet Needs and Attitudes to Skin Self-examination in melanoma survivors: EUNASS study
Sabrina Khan, Matthew Hynes, Chidiebere Nwolise, Radhika Bali, Rachel Doohan, Catherine Harwood, Muhammad Junejo, Thomas Layton, Charlotte Proby, Jeremy Rodrigues, Pia Tookey, Antonio Ji Xu, Fiona Walter and Rubeta Matin
- P51 A national analysis of demographic features associated with spindle cell melanoma
Xinxin Wu, Mohammed Al Kurnas, Adam Liu and Peter Silberstein
- P52 Addressing the overtreatment of basal cell carcinoma and other skin cancer in the UK
Ahmad Elmansouri, Jessica Alcena, Zoë Venables, Birgitta Van Bodegraven, James Powell and Paul Gazzani
- P53 Incidence of Merkel cell carcinoma in the Republic of Ireland (1994–2019)
Claire Doyle, Marta Costa Blasco, Orla McFeeley, Paula Beatty, Sarah O'Mahoney, Lisa Murphy, Madonna Andrawis and Anne Marie Tobin
- P54 Blood tumour burden does not correlate with skin tumour burden in early-stage mycosis fungoides: analysis of the PROspective Cutaneous Lymphoma International Prognostic Index (PROCLIP) international registry
Maria Charalambides, Bethanie Rooke, Farida Shah, Clive Irwin, Duncan Murray, Felicity Evison and Julia Scarisbrick
- P55 Real-world clinical and patient-reported outcomes of talimogene laherparepvec (T-VEC) treatment for melanoma in transit and nodal metastases at a UK centre
Hannah Bennett, Kellie Butterfield, Joanne Robinson, Joh Sugden, Andrew Muinonen-Martin and Angana Mitra
- P56 Trial redesign for the phase II/III DETECTION trial: circulating tumour DNA-guided therapy for stage IIB/C melanoma after surgical resection
Andy Muinonen-Martin, Rebecca Lee, Dominic Rothwell, Richard Jackson, Nigel Smith, Stephen Wong, Noel Kelso, Chelsee Hewitt, Jackie Mitchell, Kate Jones, Samra Turajlic, Pippa Corrie, Richard Marais, Mark Middleton, Sarah-Jane Dawson, Shahneen Sandhu, Caroline Dive and Paul Lorrigan
- P57 Retrospective review of patients with lentigo maligna treated with topical 5% imiquimod (Aldara®) at a single tertiary UK centre: need for more practical standardized treatment guidelines in the UK
Pavan Sambhi, Sina Ghadiri, Usamah Afzal, Andrew Muinonen-Martin and Angana Mitra

- P58 Sustained improvement in malignant melanoma prognosis at a consultant-delivered multidisciplinary pigmented lesion clinic: a follow-up study
Róisín McDonnell, Lisa Kiely, Aline Brennan, Joe McDevitt, Deirdre Murray, Michelle Murphy, Mary Bennett and John Bourke
- P59 Results of sentinel lymph node biopsies in thin melanomas (Breslow thickness 0.8–1.0 mm) and correlation with histopathological features
Bernard Anton Kenny and Alana Durack
- P60 Intralesional steroids versus liquid nitrogen cryotherapy versus 595-nm pulsed dye laser in the management of chest keloids: a comparative study
Shekhar KC, Aditi Mishra, Elisha Shrestha, Namrata Pradhan and Dharmendra Karn
- P61 Cutaneous malignant melanoma diagnosed on nonvisible body sites and the importance of total body examination: a retrospective cohort study
Anna Wolinska, Stephanie Bowe, Gregg Murray, Sinead Collins, Cliona Feighery, Muireann Roche and Aizuri Murad
- P62 The environmental impact of skin cancer surgery
Sarah Fleming, Ciara Drumm, Ciara O'Donnell, Sorcha Lynch, Aoife Lally and Blaithe Moriarty
- P63 Effectiveness of an image-analysing artificial intelligence-based digital health technology to diagnose nonmelanoma skin cancer and benign skin lesions
Helen Marsden, Stephanie Austin, Ioulios Palamaras, Polychronis Kemos and Jack Greenhalgh

Medical Dermatology

- P64 Efficacy of baricitinib in patients with different degrees of severe alopecia areata: 52-week results from BRAVE-AA1 and BRAVE-AA2
Paul Farrant, Alexander Egeberg, Taisuke Ito, Beatrice Gittens, Chiara Chiasserini, Guanglei Yu, Frederick Durand and Yu-Huei Huang
- P65 Vitamin D deficiency is associated with atopic dermatitis severity in a Bangladeshi population living in the UK
Rebecca L. McCarthy, Bjorn R. Thomas, Soha S. Tawfik, Ravinder Atkar, Bryan McDonald, Sasha Dhoat, Aaron Hughes and Edel O'Toole
- P66 Uptake of biosimilars for psoriasis: a drug utilization study from the British Association of Dermatologists Biologics and Immunomodulators Register (BADBIR)
Duc Binh Phan, Anthony Bewley, Catherine Smith, Teena Mackenzie, Christopher Griffiths, Mark Lunt, Richard Warren and Zenas Yiu
- P67 Overall lifetime risk for alopecia areata is 2.1%, and is higher in women, nonwhite ethnic groups and the most deprived: a UK population-based cohort study
Andrew R. Thompson, Christos Tziotzios, John Nesnas, Rowena Randall, Maciej Czachorowski and Andrew Messenger
- P68 Liver fibrosis is independent of methotrexate use in patients with moderate-to-severe psoriasis
Parastoo Babakinejad, Rebecca Lapsley, Lara Forster, Stuart McPherson, Mark Pearce, Nick Reynolds, Emma Slack, Sophie Weatherhead and Philip Hampton
- P69 Baseline characteristics of patients with physician-diagnosed hidradenitis suppurativa: results from a retrospective observational study using data from the Clinical Practice Research Datalink database
Kave Shams, Ellie Rashidghamat, Annette Brown, Paula Pamies and John R. Ingram

- P70 A randomized open-label study to compare two different dosage regimens of oral tranexamic acid in treatment of moderate-to-severe facial melasma
Vinay Keshavamurthy, Rajsmitta Bhattacharjee, Vinod Hanumanthu, Vishal Thakur, Anuradha Bishnoi, Davinder Parsad and Muthu Sendhil Kumaran
- P71 Dupilumab improves patient-reported itch and other signs and symptoms of disease in adults with prurigo nodularis (LIBERTY-PN PRIME and PRIME2)
Shawn G. Kwatra, Gil Yosipovitch, Sonja Ständer, Isabelle Guillemin, Jérôme Msihid, Simmi Wiggins, Noah A. Levit, Robert McDonald, Ashish Bansal, John T. O'Malley, Donia Bahloul and Ryan B. Thomas
- P72 Development of a novel platform trial evaluating systemic therapies in adult atopic eczema with parallel mechanistic studies (BEACON and BEACONomics): a UK-wide interdisciplinary collaboration
Andrew Pink, Satveer Mahil, Sally Aziz, Francesca Capon, Muzlifah Haniffa, Nicholas Reynolds, Hywel Williams, Richard Emsley, Catherine Smith, Tim Burton, Angela Cape, Joanne Chalmers, Sam Curtis, Amanda Dougans, Jack Kelly, Joanna Kelly, Paul Leighton, Caroline Murphy, Mahesh Parmar, Andrew Proctor, Tracey Sach, Stephen Smith and Sylvia Wilczynska
- P73 Laboratory safety from a 16-week phase III study of dupilumab in patients aged 6 months–5 years with moderate-to-severe atopic dermatitis
Amy S. Paller, Michael J. Cork, Andreas Wollenberg, Elaine C. Siegfried, Mercedes E. Gonzalez, Benjamin Lockshin, Faisal A. Khokhar, Zhen Chen, Tayler Gonzalez, Elizabeth Simcox and Randy Prescilla
- P74 AMGEVITA® persistence in patients with plaque psoriasis: a retrospective database analysis from the British Association of Dermatology Biologics and Immunomodulators Register (BADBIR)
Kave Shams, Jason Morley, Vaiva Gerasimaviciute, Anouchka Seesaghur, Michael Duxbury, David Neasham, Richard Baxter, Jennifer Montgomery and Andrew Taylor
- P75 Are 'hypoallergenic' personal care products truly safe?
Siwaporn Hiranput, Lucy Smith and Paul Devakar Yesudian
- P76 Management of aciclovir-resistant mucocutaneous herpes simplex virus infection: a systematic review
Herbert Castillo Valladares, Nora Rudd and Kieron Leslie
- P77 Deucravacitinib, an oral selective allosteric tyrosine kinase 2 inhibitor, versus placebo and apremilast in moderate-to-severe plaque psoriasis: achievement of absolute Psoriasis Area and Severity Index thresholds in two phase III trials
Richard B. Warren, Mark Lebwohl, Melinda Gooderham, Diamant Thaci, Peter Foley, Alice B. Gottlieb, Subhashis Banerjee, Lauren Hippeli, Renata M. Kisa and Christopher E.M. Griffiths
- P78 Amyopathic dermatomyositis: a retrospective review of 21 cases
Pavan Sambi, Wajeeha Khan and Phil Laws
- P79 A multidisciplinary expert consensus on the assessment of and support for mental health in children and young people living with skin conditions
Zahra Moledina, Tess McPherson, Jane Ravenscroft, Rukhsana Ali and Susannah Baron
- P80 Real-world evidence of effectiveness of secukinumab in patients with psoriasis with and without scalp involvement from the British Association of Dermatologists Biologic and Immunomodulators Register (BADBIR)
Laura Savage, Jenny Hughes, Kia Matthews and Laura Rhodes
- P81 Long-term efficacy of abrocitinib in adolescents and adults with moderate-to-severe atopic dermatitis: a post-hoc analysis of JADE EXTEND
Amy S. Paller, Michael J. Cork, Carsten Flohr, Christine Bangert, Stephan Weidinger, John Nesnas, Saleem A. Farooqui, Pinaki Biswas, Melissa Watkins and Herwig Koppensteiner

- P82 Validation of the Dermatology Life Quality Index (DLQI): a systematic review of the literature
Jeffrey Johns, Jui Vyas, Faraz Ali, John Ingram, Sam Salek, Ravinder Singh and Andrew Finlay
- P83 Biological and Janus kinase inhibitor therapy outcomes for severe psoriasis in trisomy 21
Cathal O'Connor, Berbie Byrne, Darren Roche, Garret O'Connell, Michael O'Connell, Michelle Murphy, John Bourke, Maeve Lynch and Mary Bennett
- P84 Efficacy and safety of lebrikizumab at 16 weeks: pooled analyses from ADvocate1 and ADvocate2 phase III trials in patients with moderate-to-severe atopic dermatitis
Richard B. Warren, Jonathan I. Silverberg, Emma Guttman-Yassky, Diamant Thaçi, Alan Irvine, Linda Stein Gold, Andrew Blauvelt, Eric L. Simpson, Chia-Yu Chu, Zhuqing T. Liu, Renata Gontijo Lima, Sreekumar Pillai, Esther Garcia Gil and Julien Seneschal
- P85 Switching from adalimumab originator to biosimilar: a 3-year retrospective cohort analysis
Lisa Killion, Ali Alsharqi and Brian Kirby
- P86 Are symptoms of cardiac ischaemia different in patients who have psoriasis than in those who do not?
Sebastian Moshtael, Luigi Venetucci and Helen Young
- P87 Therapeutic outcomes in xanthoma disseminatum with cladribine: a long-term experience of six patients from a tertiary care institute
Neha Taneja, Ananya Sharma and Ritu Sharma
- P88 Higher socio-economic status is associated with psoriasis
Or Dagan
- P89 Real-world effectiveness of guselkumab in patients with psoriasis with and without concomitant psoriatic arthritis: retrospective data from the British Association of Dermatologists Biologics and Immunomodulators Register (BADBIR)
Kave Shams, Xiayi Wang, Justin Gillespie and Bhavika Chauhan
- P90 Adalimumab treatment for hidradenitis suppurativa: a retrospective analysis of demographics, patient characteristics and treatment outcomes for 107 patients from a tertiary dermatology centre
Jane O'Connor, Mia Steyn, Manpreet Lakhan, Felicity Ferguson, Helena Malhomme, Salma Ayis, Aadarsh Shah and Ellie Rashidghamat
- P91 Exploring acceptability of 'as required' biological therapy in psoriasis remission: insights from multistakeholder focus groups
Maneeha Naveed, Satveer Mahil, Sarah Chapman, Sam Norton, David Gleeson, Koyinsola Quadry and Jonathan Barker
- P92 Cutaneous manifestations of myelodysplastic syndrome: a systematic review
Xiang Li Tan, Theodora Vatopoulou, Amana Siddique, Athena Kolovos, Ruth Lamb, Charlotte Fleming, Leila Ferguson, Victoria Akhras and Zainab Jiyad
- P93 Dupilumab treatment in children with moderate-to-severe atopic dermatitis increases levels of bone mineralization biomarkers
Alan D. Irvine, Amy S. Paller, Julie E. Horowitz, Annamaria Farrell, Sarah Hatsell, Peter Ehmann, Robert McDonald, Ainara Rodriguez Marco, Tingting Tian and Sonya L. Cyr
- P94 Bimekizumab early treatment response translated into cumulative benefits in health related quality of life in patients with moderate-to-severe plaque psoriasis: results from 2 years of the BE RADIANT phase IIIb trial
Philip Hampton, Patrick Brunner, Kamran Ghoreschi, Wolf-Henning Boehncke, Rhys Warham, Valerie Ciaravino, Balint Szilagyi, Fabienne Staelens and Amy Foulkes

- P95 A single-centre retrospective study of the association between subacute cutaneous lupus erythematosus and malignancy
Eimear Duff, Eimear Gilhooley, Finbar O'Shea and Bairbre Wynne
- P96 Nutrition in dermatology practice: an unmet need for both patients and healthcare professionals
Katie Lockwood, Sukhjit Dhariwal, Wendy Hall, Rachel Gibson, Christopher Griffiths, Alia Ahmed and Thiviyan Maruthappu
- P97 Risankizumab real-world effectiveness in UK clinical practice: results from the BADBIR registry
Kave Shams, Sean Bartlett, Rachael Millward, Kavita Sharma and Mark Bennett
- P98 Real-world effectiveness of guselkumab in absolute Psoriasis Area and Severity Index-stratified patients with psoriasis: data from the British Association of Dermatologists Biologics and Immunomodulators Register (BADBIR)
Faraz Ali, Xiayi Wang, Justin Gillespie and Louise M. Topping
- P99 Skin disease in people living with HIV in the UK: a retrospective analysis
Jamie McCluskey, Louis Hickling, Collins Iwuji and David Chandler
- P100 Dermoscopy and clinicohistopathological profile of lichen planopilaris restricted to the face: a case series of six unusual cases
Rohit Kothari and Sunmeet Sandhu
- P101 Baseline characteristics and cardiovascular risk of adults with plaque psoriasis treated with apremilast in UK clinical practice: a retrospective analysis of the British Association of Dermatologists Biologic Interventions Register (BADBIR)
Kave Shams, Jennifer Montgomery, Vaiva Gerasimaviciute, Richard Baxter, Anouchka Seesaghur and Jason Morley
- P102 Severe atopic eczema is associated with reduced acne vulgaris in Bangladeshi children and young adults: a retrospective analysis from a cross-sectional study
Aaron Hughes, Elsa Barbosa, Jeva Cernova, Bjorn Thomas, Edel O'Toole and Ryan O'Shaughnessy
- P103 A retrospective observational study of toxic epidermal necrolysis at a tertiary referral centre from 2015 to 2022
Nicola Watson, Katie Best, Simon Meggitt and Phil Hampton
- P104 Use of intravenous antibiotics in severe hidradenitis suppurativa: a multicentre retrospective study
Xiang Li Tan, Sally Aziz, Ellie Rashidghamat, Carolyn Hemsley, Simon Goldenberg and Ruth Lamb
- P105 Adult-onset mastocytosis: a retrospective review
Siwaporn Hiranput, Kasthuri Nallathamby, Bilal Haider Malik, Lucy Smith, Abigail J. Williams, Habibah Ayub and Paul Devakar Yesudian
- P106 Hidradenitis suppurativa is associated with lower socio-economic status using the MacArthur scale of subjective social status
Niamh Kearney, Barry McGrath, Collette McCourt, Rosalind Hughes, Donal O'Kane and Brian Kirby
- P107 Clinical priorities when treating psoriasis: insights from a real-world data study of tildrakizumab
Gabrielle Becher, Karen Stephen, Alison McInnes, Adrian Heald, Paul Riley, Mark Davies, Murad Ali and Ismail Kasujee

Patient Engagement at the BAD Annual Meeting

We have a number of Patient engagement initiatives at this years Annual Meeting. These include the following:

Please visit the following PSGs within the Exhibition Hall and take part in the quiz on the live meeting app to be in with a chance of winning an iPad.

SKIN: BELOW THE SURFACE

A NEWS STYLE PROGRAMME
Presented by Louise Minchin

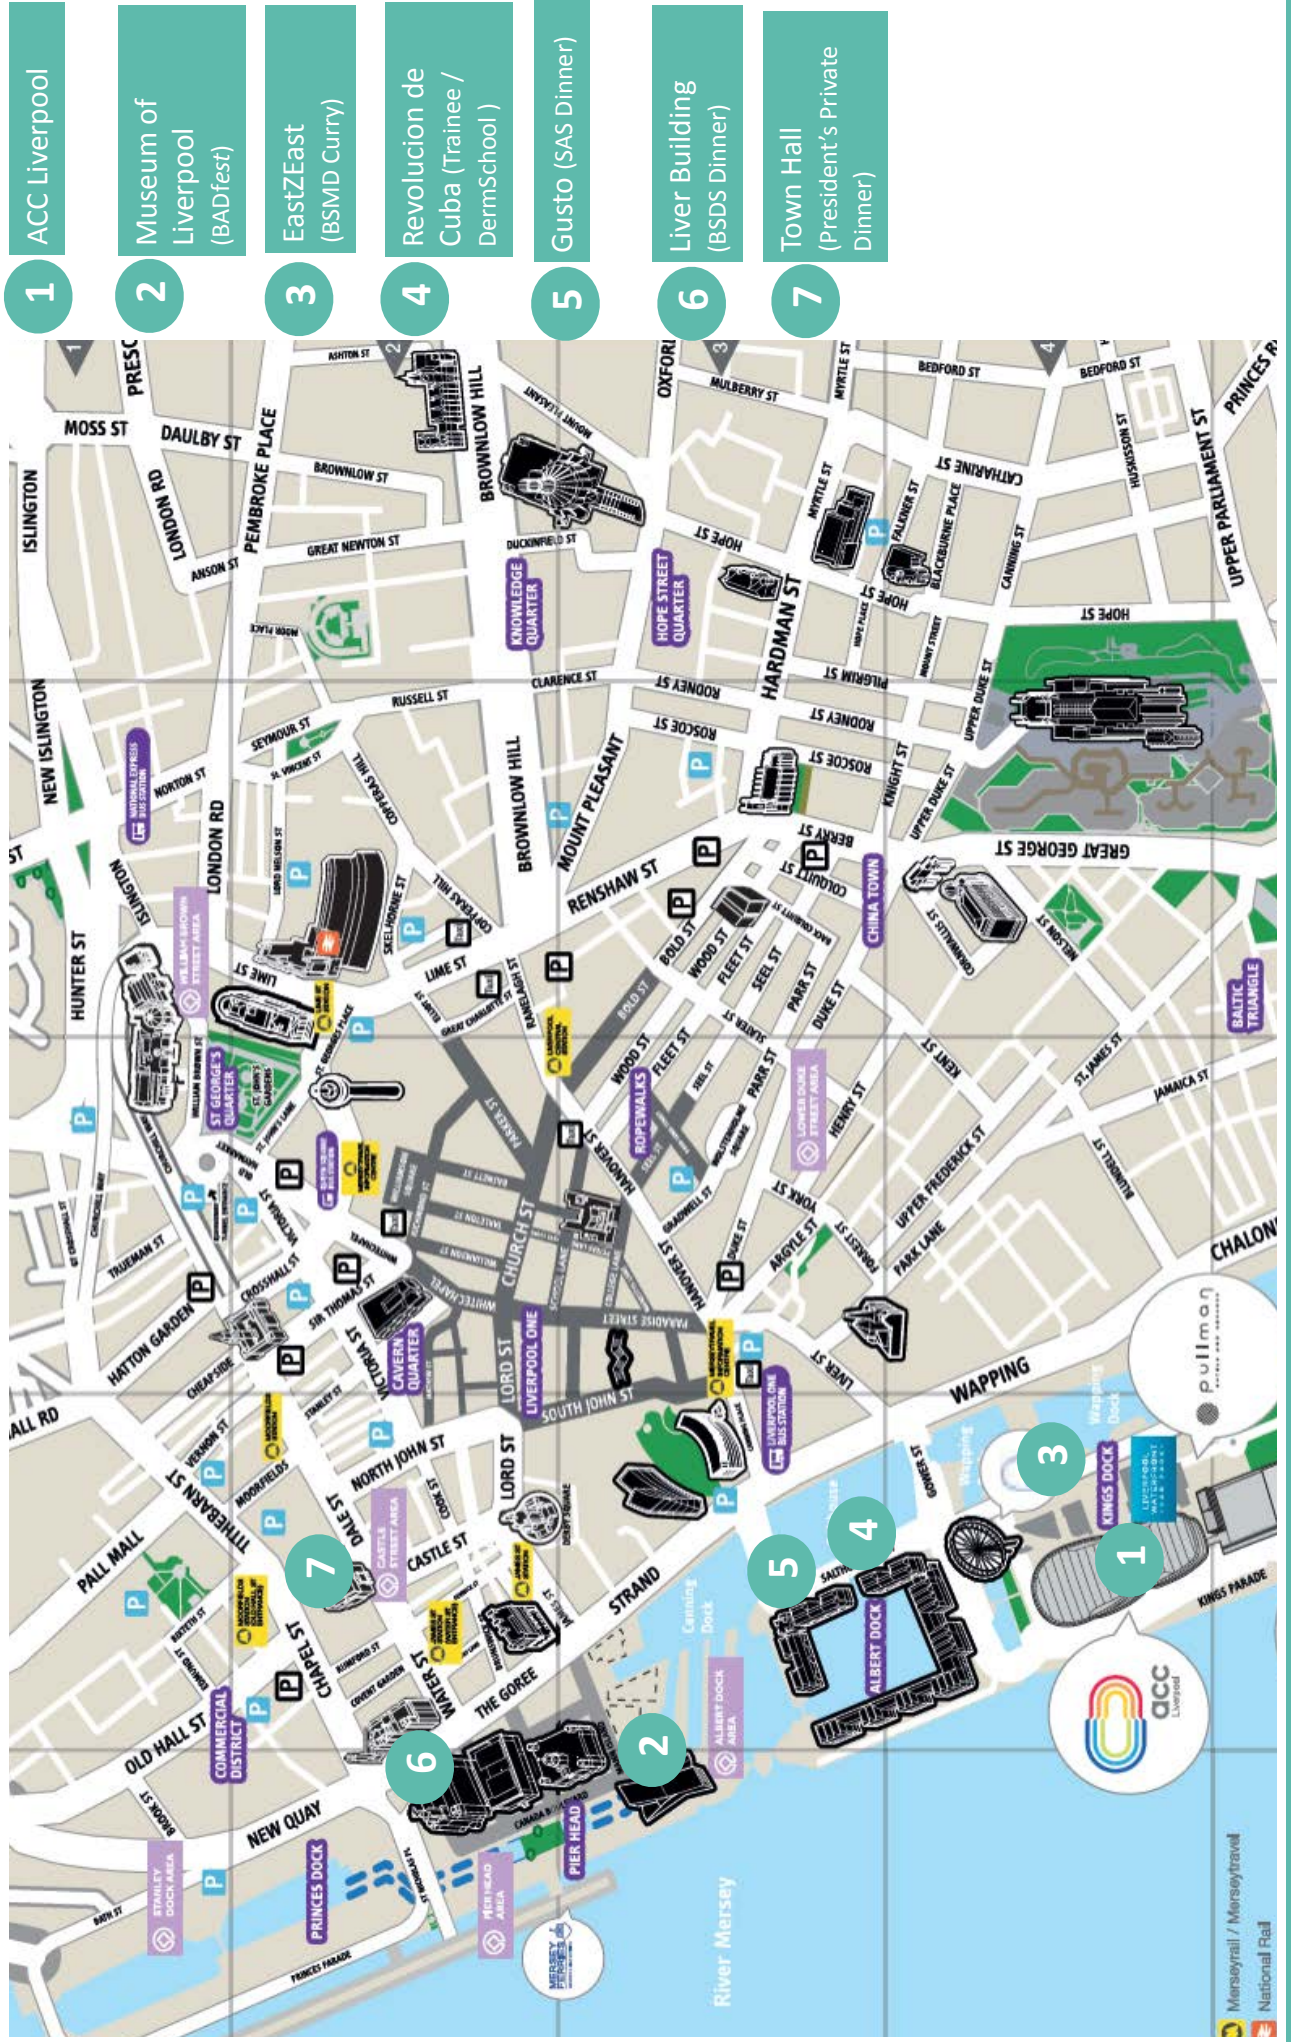

Launching at the Annual Meeting
of the British Association of
Dermatologists, June 2023

To celebrate the launch of Skin: Below the Surface, a new collaborative programme by ITN Business and the British Skin Foundation, we have brought together five experts to discuss the impact of skin conditions on your emotional wellbeing and mental health.

The panel discussion will be free to watch online live at 10.30 am on Wednesday 28th June. Scan the QR code to register in advance for this webinar.
